The General Physics Equipment Reliability Model

Reliability Engineering/Improvement
- Steamed Reliability Centered Maintenance
- Performance Measurement
  - MTBF, MTTR, OEE, $/Unit
- Root Cause Failure Analysis
- Improvement Projects

Proactive Inspections
- Predictive Maintenance
- Preventative Maintenance
- Routine Equipment Care
- Inspection Checksheets

Work Execution
- W.O. Execution
- Routine Inspections
- Fast Failure Analysis
- Daily Management

Materials Management
- Spares Storeroom Practices
- Vendor Management
- Repair Specifications

Training and Development
- Craft Skills
- Equipment Reliability System
- Management & Leadership
- Business System

Goal Deployment
- Strategy and Alignment
- Annual Business Plan
- Benchmarking
